

Military, Intel, Historical UFO Terms

FLYOBRRPT (Flying Object Report) Manual (200-3, Exhibit 1P):

For use by USAF Intelligence and operations officers was forwarded to Air Force Installation commanders as a guide to procedures and operations of Project Blue Book. Taken from Chapter 9, Page 3, the caption states: "The Air Technical Intelligence Center (ATIC) is responsible for the prevention of technological surprise."

Foreign Technology Division (FTD):

Air Force Systems Command agency which took over responsibility for project Blue Book from the Air Technical Intelligence Center (ATIC) in 1961.

Army's Intelligence and Threat Analysis Center (ITAC):

Significant black budget monies are regularly funneled through ITAC to deal with the UFO problem. 'Some of these funds are earmarked for secret programs run by NASA; both the NSA and CIA are said to work closely with ITAC. (13/P.422)

JANAP-146:

Regulation allegedly linked to AFR 200-2 that made the release of information about UFOs by military personnel a criminal act, punishable by 10 years in prison and a \$10,000 fine.

USAF Joint Space Operations Center:

Tracks man made objects in space.

National Reconnaissance Organization (NRO):

Conducts surveillance, interdiction, capture and confiscation of UFOs, extraterrestrial-connected operations. (Steven Greer source)

Space-Based Spies. As Antifascist Calling revealed in several investigative pieces in June, October and November 2008, America's fleet of military spy satellites are flown by the secretive National Reconnaissance Office (NRO). "The NRO is a joint organization engaged in the research and development, acquisition, launch and operation of overhead reconnaissance systems necessary to meet the needs of the Intelligence Community and of the Department of Defense. The NRO conducts other activities as directed by the Secretary of Defense and/or the Director of National Intelligence."

Plant 42:

Air Force Plant 42, located in the high desert region of Antelope Valley, California, is the heart of the "military industrial complex," due to the fact that Lockheed Martin, Northrop and Boeing all maintain expansive facilities in the area.

Project Moon Dust:

Collect debris from foreign sources (UFO-related material/investigations) by the Air Force that was classified and carried out by specially trained intelligence team personnel (4602d AISS/1127th USAF Field Activities Group) starting in 1953 or 1957. Its code name was changed after being compromised in 1985. The mission, however, continued.

Strategic Defense Initiative (SDI, or "Star Wars"):

U.S. government program responsible for research and development of a space-based system to defend the nation from attack by strategic ballistic missiles. SDI, popularly referred to as "Star Wars," was announced by President Ronald Reagan in a speech in Mar., 1983, and was derided by his critics as unrealistic. In 1993, SDI was reorganized as the Ballistic Missile Defense Organization (BMDO). The more limited system, called the National Missile Defense (NMD), is intended to protect all 50 states from a rogue missile attack, but the deployment of such a system was forbidden under the 1972 Anti-Ballistic Missile (ABM) Treaty.

Seeding:

Defense industry integration of materials developed from recovered ET technology by Pentagon. 'Furthermore, when the alien technology was fed to US industry, at no time was the source revealed. Colonel Corso had the perfect cover: it was foreign technology that he was providing - ostensibly something picked up from the Soviets or the Germans. No questions were allowed and no explanations given. And, as you might expect in a country with three separate military services, the Army,
